Don't wait. Inflate.

Does Your Current Air Program Maximize Profitability?

Legacy and Legacy Plus machines provide additional revenue to your bottom line, at zero cost to you. Join the 70,000 convenience stores, gas stations and car washes that enjoy generous revenue sharing from our hassle-free, highly reliable air programs. Options include satellite monitoring, lighted signs, credit card and digital calibration. Call us for a free site survey and turn air into income today.

Technology Driven Performance

Our premium line of XactAir machines offers the most advanced technology available today. Every machine measures and auto-calibrates tire air pressure for ease and accuracy. 24/7 wireless diagnostics continually monitor XactAir machines for technical problems and cash availability, relaying the data for analysis and quick dispatch when needed.

Where's the "Service" in Your Air Program?

Broken parts, inoperable gauges and greasy hoses littering the ground are just a few of the hassles people share with us about their current air programs. AIR-serv is dedicated to meeting your service challenges with prompt, professional solutions. Our highly trained technicians regularly conduct comprehensive inspections and provide preventative maintenance so that your customers can rely on you for air when they need it.

Charity Program Elevates Customer Loyalty

AIR-serv has pledged over 2.5 million meals to Feed My Starving Children, a non-profit organization that annually saves millions of children in nearly 70 countries. When your customers use AIR-serv machines to fill their tires, they are making a difference for these children, which is a unique incentive to make your location a routine destination.

Our AIR for Charity program builds loyalty. Your customers feel good about helping others – and appreciate you for giving them the opportunity. There is no cost for you and no extra effort or expense for your customers.

Does Your Air Program...

Separate you from the competition?

Strengthen customer loyalty?

Drive traffic to your location?

Improve customer usability?

Ours Does...

With credit card capabilities, digital and calibrated equipment options and wireless monitoring technology for fast service... AIR-serv turns air into income for you.

No air delivery system provider on the market today can match AIR-serv's combination of service, technology and design.
